St Mary’s School
To do ordinary things extraordinarily well

Behaviour Management Policy

Rationale

At St Mary’s School, we provide a safe and inclusive learning environment for all members of our community. We have high expectations of our students ensuring that they are respectful and responsible and that they interact with others in a Christ-like manner. We believe that for learning to occur, students, staff and parents must promote positive behaviour and maintain a consistent, pastoral approach.

Principles

Social Skills

We believe social skills are an essential component in a child’s life and learning journey. Therefore:

- We guide and model positive interactions with others.
- We encourage consistent use of manners.
- We provide opportunities for children to interact with various students and adults, in both small and large groups.
- In competitive situations, we promote ‘Good Sportsmanship’, the ‘good’ loser and the humble winner.
- We present a social skills award at the Monday Morning Assembly.

Conflict Resolution

We believe that conflict resolution is a process by which children are encouraged to take responsibility for their actions. Therefore:

- We emphasise good choices to avoid the need for conflict resolution.
- We assist children in creating a dialogue with others in order to resolve conflicts.
- We teach about emotions and feelings and how to understand and express them appropriately.
- We guide children through discussion of the conflict resolution process.
Involve Community

We believe that teachers, parents and students should be involved in behaviour management in order to create a positive environment. As a school we support parents in their role of developing well behaved children. Therefore:

- We will give students, teachers and parents the opportunity to understand the school’s behavioural expectations.
- We will, as a school community, work together to support the implementation of behaviour management procedures.
- Parents and teachers will model appropriate behaviour as expected in society.
- We will promote open and honest communication between parents, teachers and students.
- We will communicate via note or phone call to parents if their child has been sent to sit outside the Principal’s office at recess or lunch.

Self Reflection

We believe that students should be accountable for their own behaviour. Therefore:

- We provide opportunities for students to reflect on their behaviour.
- We teach self management skills.
- We assist students to set behaviour goals, where intervention is deemed appropriate.

Teaching and Learning

We believe in providing a quality teaching and learning program which motivates students to actively participate in a positive and responsible manner. Therefore:

- We utilise varied learning strategies.
- We explicitly teach positive behaviours.
- We give children responsibilities.
- We reward and recognise good behaviours.

Understanding Individual Differences and Student Background

We believe in providing an environment that caters for individual differences and considers student backgrounds. Therefore:

- We will address situations calmly in order to understand where the child is coming from.
- We will endeavour to get to know students’ backgrounds so we can be proactive.
- We will develop a positive rapport with students.

Each class teacher will establish through consultation with the class, at the beginning of the year, a Behaviour Management Plan which is consistent with the guidelines provided below.

The Class Behaviour Management Plan should be reflective of the class’s stage of development and, as far as practicable, consistent across the year levels.

**Aims:**

- The Class Behaviour Management Plan should recognise that each student has a right to feel safe and to learn in peace.
- The teacher has a right to teach in peace and safety.

**Guidelines:**

- The teacher should approach the Principal or a peer if they wish additional advice on establishing behaviour management processes within the classroom.
- The class process should establish a direct link between the child’s actions, the violation of the Class Behaviour Management Plan and the consequences.
- The consequences should be reflective of the child’s developmental stage.

**Corrective procedures (5 step plan):**

Where a child fails to comply with the Class Plan or rules the following procedure will be implemented:

1. Verbal or non-verbal pre-warning to the child
2. Child is spoken to by the staff member indicating how the child has violated the Class Discipline Plan – **First Warning**
3. Child given verbal correction and time to reflect on their actions separated from the class (This time will vary according to stage of development) – **Second Warning**. Explanation of Behaviour Sheet is to be completed.
4. Child given verbal correction and time to reflect on their actions separated from the class (This time will vary according to stage of development) – **Third Warning** and
loss of recess or lunch and sitting outside Principal’s Office. Parent notified via Inappropriate Behaviour Note.

5. Sent to Principal or his delegate for further consequences and parent meeting

Steps 2-4 should be recorded in the teacher’s Behaviour Journal as evidence of the procedure followed.

Continuous or severe misbehaviour should be discussed with the Principal at the earliest opportunity and an appropriate Behaviour Management Plan developed.

STAFF NOTES

Managing student behaviour is a stressful and a time-consuming process.

The child can only receive a good education in an environment where the child has the right to learn and be safe.

All students need to:

- Be aware of the consequences that flow from failing to comply with the class or school rules.
- Understands that a consistent approach will be applied by all staff members.
- Know what is expected of them under the Managing Student Behaviour Policy.
- Know the consequences that flow from their decisions under the Managing Student Behaviour Policy.

Teachers can only provide a good education in an environment where:

- The Managing Student Behaviour Policy is implemented by all staff consistently.
- The teacher is free to focus on the educational processes.

Managing student behaviour is the responsibility of all staff; therefore all staff should be active partners. A staff member who needs support in the area of managing student behaviour should feel comfortable to consult a peer or the Principal in the spirit of mutual support and with open communication to ensure the best outcome.

**Discipline Procedure Checklist**

- The class teacher will negotiate the Class Discipline Plan and Rules based on the school’s Behaviour Management Policy.
- The class teacher displays the Class Discipline Plan and Rules providing a copy for each family and the Principal.
